

Calendar date markers

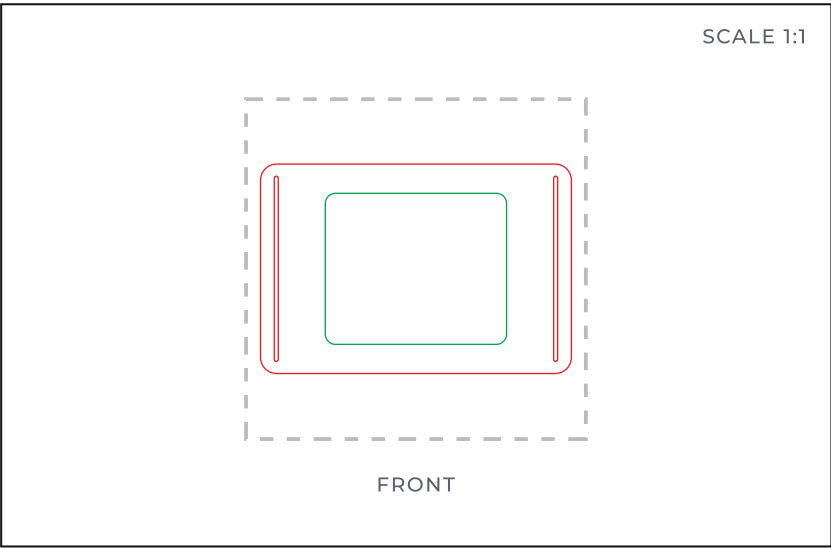

3D-BIU-01

The shape on the template is only an example. Every product can be made in a custom shape and size to match your design. The template shows how to prepare the file: areas, margins and places for decoration.

The suggested maximum size (grey dashed line) is a guideline, not a strict limit. A larger design is possible too – we will discuss it individually and match it to production capabilities.

DIMENSIONS

-  **41 × 28 × 2 mm**
Product outline
-  **24 × 20 mm**
Standard size of the date opening
-  **45 × 45 × 2 mm**
Suggested maximum product size
-  **≈ 22,5 mm**
Width of the transparent strip
