

# Watering caps

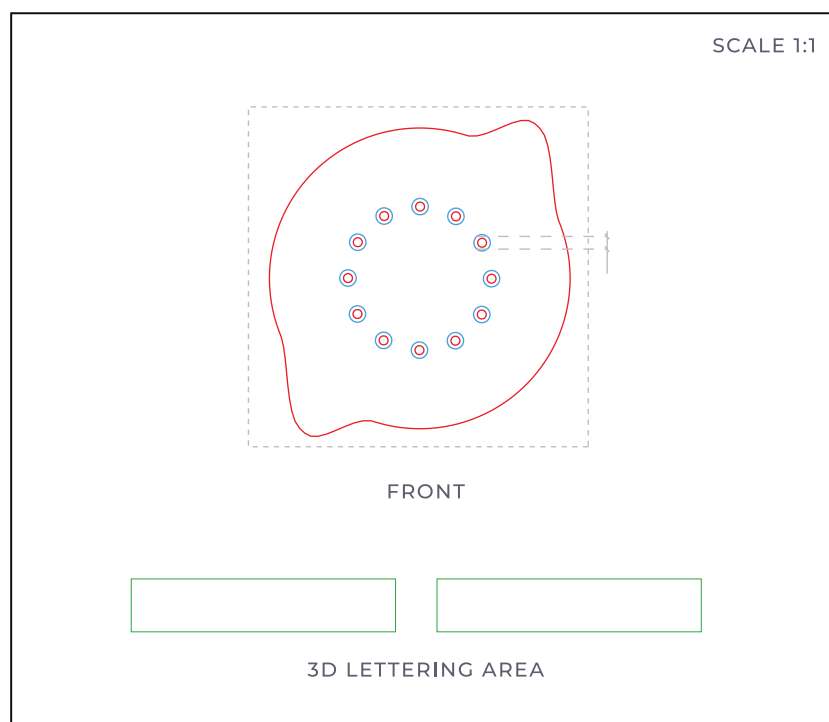

3D-EKO-01

**The shape on the template is only an example.** Every product can be made in a custom shape and size to match your design. The template shows how to prepare the file: areas, margins and places for decoration.

The suggested maximum size (grey dashed line) is a guideline, not a strict limit. A larger design is possible too – we will discuss it individually and match it to production capabilities.

## DIMENSIONS

-  **40 × 42 mm**  
Product outline
-  **38,5 × 40,5 mm**  
Safe area for the textured design
-  **ø 2 mm**  
Hole diameter
-  **45 × 45 × 13,7 mm**  
Suggested maximum product size
-  **7 × ok. 35 mm**  
3D lettering areas (on both sides):  
height × length

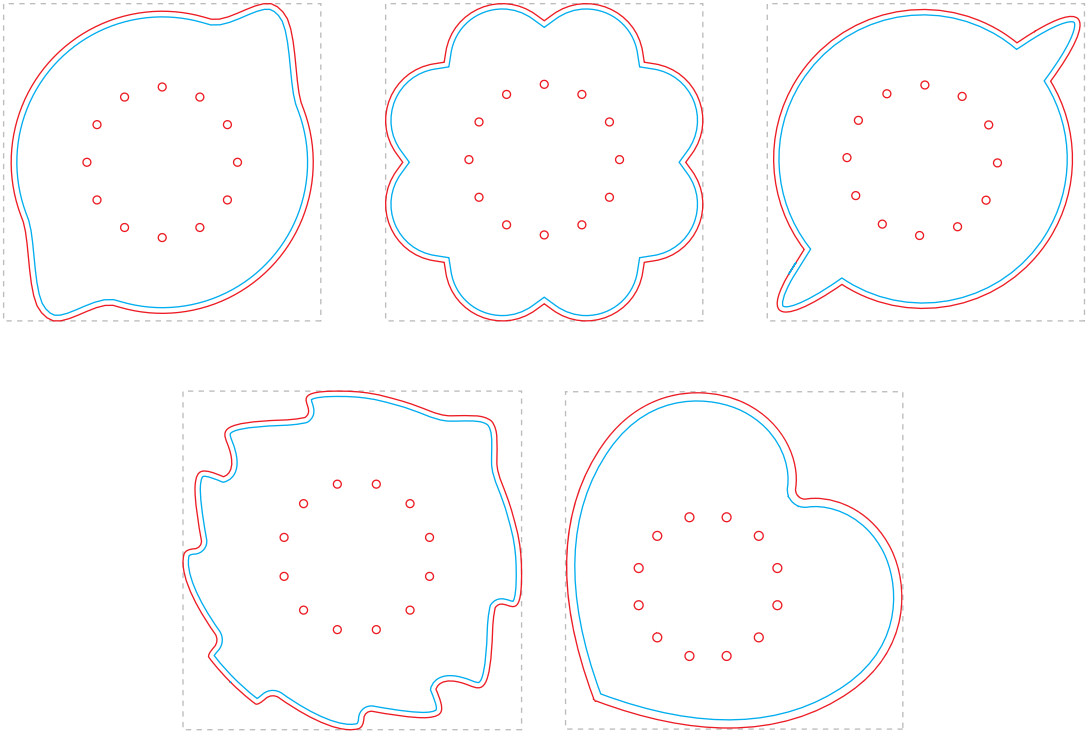

## DESIGN EXAMPLE

# Ready-made shapes

Watering caps · 3D-EK0-01

SCALE 1:1

# Card 75 × 110 mm

Watering caps · 3D-EK0-01

The watering cap can be packed in a bag together with a custom card and instructions for use.

DIMENSIONS

- 81 × 116 mm

Gross area (with bleed)
- 75 × 110 mm

Net area
- 70 × 105 mm

Safe area

FILE PREPARATION

Prepare the file as a PDF in the CMYK colour space, at the gross (bleed) size, without printer's marks. All text should be converted to outlines. The optimal resolution for raster graphics and photos is 300 DPI.
