

Beads

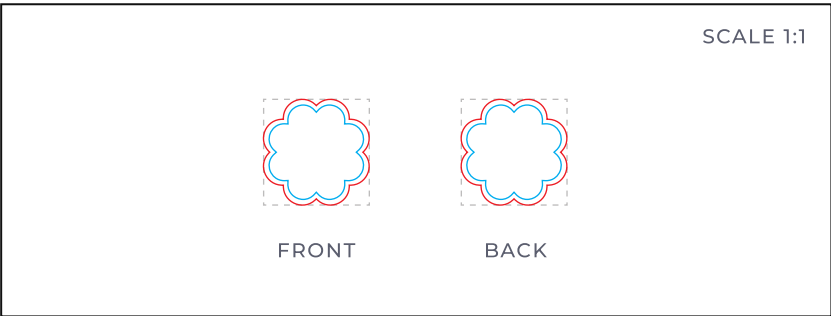

3D-ODZ-04

The shape on the template is only an example. Every product can be made in a custom shape and size to match your design. The template shows how to prepare the file: areas, margins and places for decoration.

The suggested maximum size (grey dashed line) is a guideline, not a strict limit. A larger design is possible too – we will discuss it individually and match it to production capabilities.

DIMENSIONS

-  **14 × 14 mm**
Product outline
-  **12,5 × 12,5 mm**
Safe area for the textured design
-  **14 × 14 × 8 mm**
Suggested maximum product size
