

Custom pins

3D-PIN-01 · Fixing: $\varnothing$ 20 mm neodymium magnet

The shape on the template is only an example. Every product can be made in a custom shape and size to match your design. The template shows how to prepare the file: areas, margins and places for decoration.

A larger or unusual design is possible too – we will discuss it individually and match it to production capabilities.

DIMENSIONS

 **32,5 × 32,5 mm**
Product outline

 **30 × 30 mm**
Full design area

 **$\varnothing$ 20 mm**
Neodymium magnet (on the back)

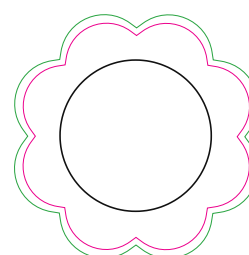

ok. 24 × 24 mm

Minimum size – the magnet must fit underneath

SCALE 1:1

DESIGN EXAMPLE

Custom backing card 50 × 90 mm

Custom pins · 3D-PIN-01

The pins can be individually packed on a backing card with your design.

DIMENSIONS

 **56 × 96 mm**
Gross area (with bleed)

 **50 × 90 mm**
Net area

 **40 × 80 mm**
Safe area

FILE PREPARATION

Prepare the file as a PDF in the CMYK colour space, at the gross (bleed) size, without printer's marks. All text should be converted to outlines. The optimal resolution for raster graphics and photos is 300 DPI.
