

Bottle openers

One-piece bottle openers in any shape with a full-colour print – in a side or flat version.

How it works

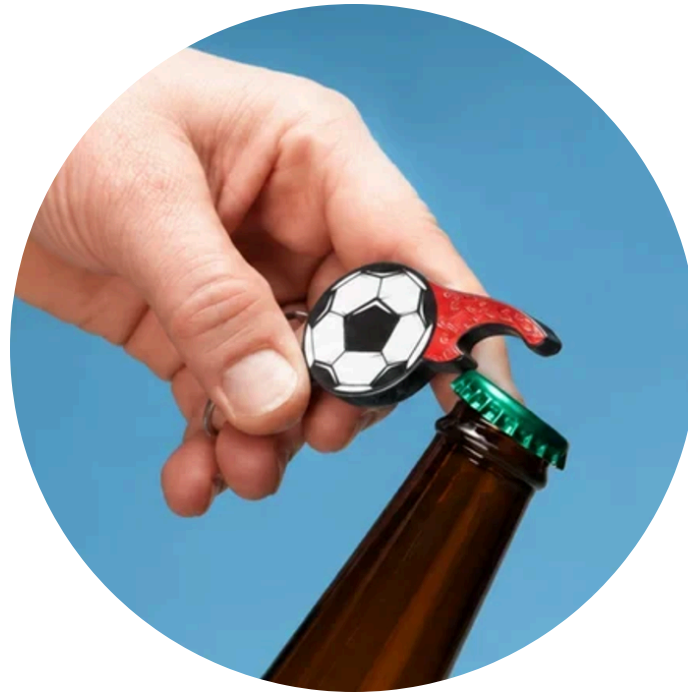

01

Hook

Hook the underside or the protruding arm of the opener under the bottle cap for a steady grip.

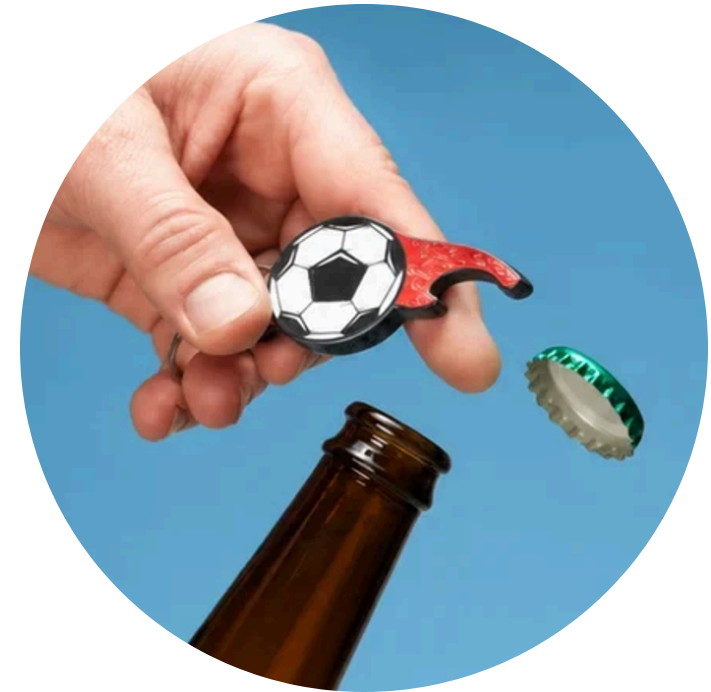

02

Lift

Gently lift the opener – the bottle opens and the cap comes off.

03

Done

Enjoy your drink – easily and effortlessly.

Two opener variants

The opening mechanism is matched to the shape – as a side or a flat variant.

Side opener

The opening mechanism sits on the side and sticks out – a classic “beak” you hook under the cap.

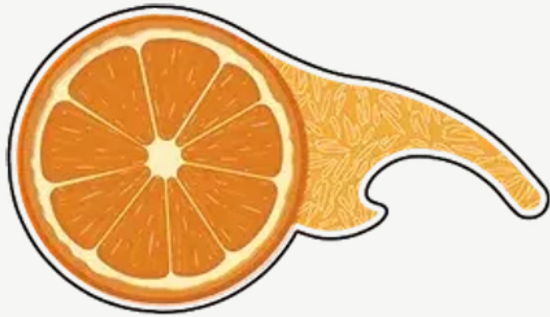

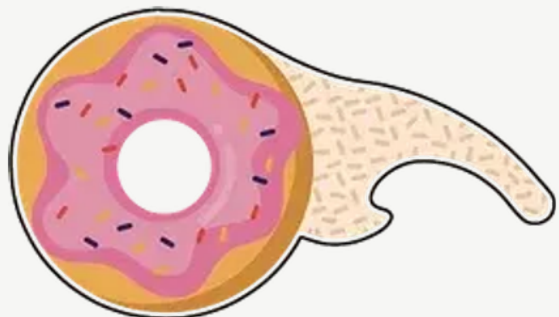

Flat opener

The opening mechanism is hidden underneath, within the outline of the shape – a smooth, uniform piece.
